EDUCATION

KTH Royal Institute of Technology

📅 February 2023 – Present

- PhD student in Computer Science

Indian Institute of Technology, Roorkee

📅 July 2017 – September 2021

- Bachelor of Technology
- CGPA : 7.665/10

PUBLICATIONS

1. Augmenting Diffs With Runtime Information, Khashayar Etemadi, **Aman Sharma**, Fernanda Madeiral, Martin Monperrus In *IEEE Transactions on Software Engineering* 2023
2. Challenges of Producing Software Bill of Materials for Java, Musard Balliu, Benoit Baudry, Sofia Bobadilla, Mathias Ekstedt, Martin Monperrus, Javier Ron, **Aman Sharma**, Gabriel Skoglund, César Soto-Valero, Martin Wittlinger In *IEEE Security & Privacy* 2023

TEACHING EXPERIENCE

I have been a teaching assistant for the following courses:

- DD2385: Computer Security
- DD1385: Software Engineering
- DD1310: Programming Techniques
- DH2642 Interaction Programming and the Dynamic Web

WORK EXPERIENCE

KTH Royal Institute of Technology

📅 November 2021 - January 2023

- Worked as a research engineer in ASSERT Research Group.
- Contributed to Sorald which is an automatic program repair tool for SonarQube static analysis warnings.
- Built collector-sahab which augments the static diff with runtime information.

Google Summer of Code

📅 2 times: May 2020 and May 2019

- Worked with Accord Project and Vega Project at University of Washington respectively.
- Added visualization sharing functionality in Vega Editor
- Created a MS Word add-in to import smart contracts into document.

Iterative.ai

📅 October 2019 - November 2019

- Worked as remote intern for Iterative.ai.
- Added a command to their open-source tool, Data Version Control, some features and fixes in the documentation: <https://dvc.org/>.
- The features added in the documentation improved accessibility by helping users to understand DVC's jargon.

TECHNICAL PROJECTS

collector-sahab

- It augments the static line-based diff with runtime information about variable value changes in two executions of a Java program.
- Paper: <https://arxiv.org/abs/2212.11077v2>
- Tool: <https://github.com/ASSERT-KTH/collector-sahab/>

sorald

- It automatically repairs static analysis warnings reported by SonarQube.
- Paper: <https://arxiv.org/abs/2103.12033>
- Tool: <https://github.com/ASSERT-KTH/sorald/>

sbom-2023

- A dataset of 156 SBOMs that were studied for the quality of dependency list they produce.
- Paper: <https://arxiv.org/abs/2303.11102>
- Tool: <https://github.com/chains-project/SBOM-2023>

gumtree-spoon

- It computes fine-grained AST difference between two Java programs.
- Tool: <https://github.com/SpoonLabs/gumtree-spoon-ast-diff>

TALKS

- EclipseCon 2022 [video] [slides]
- SciPy India 2019 [video] [slides]

SKILLS

- **Computer languages** : Java, Python, JavaScript, TypeScript, PHP, \LaTeX , Bash
- **Languages** : English, Hindi
